

# INDEX TO VOLUME XVIII

APPLEBY, E. J. Interaction of Reinforcements in the Buckling of Plate-Web Girders . . . . .	141
ASHOUR, A. A. Electromagnetic Induction in Finite Thin Sheets . . . . .	73
BANKS, W. H. H. The Boundary Layer on a Rotating Sphere . . . . .	443
BENNEY, D. J. The Flow Induced by a Disk Oscillating about a State of Steady Rotation . . . . .	333
BRUNDRIT, G. B. A Solution to the Problem of Scalar Scattering from a Smooth, Bounded Obstacle using Integral Equations . . . . .	473
CARTER, G. W., LOH, S. C. and PO, C. Y. K. The Magnetic Fields of Systems of Currents Circulating in a Conducting Ring . . . . .	87
CHANG, TIEN SUN. An Exact Analysis of Magnetohydrodynamic Stability of Nondissipative Couette Flow . . . . .	491
COOKE, J. C. The Solution of Triple Integral Equations in Operational Form . . . . .	57
DAS, A. C. Radial Jet with Swirl on Bodies of Revolution . . . . .	435
DRAKE, D. G. On the Flow in a Channel due to a Periodic Pressure Gradient . . . . .	1
DUNDURS, J. and JAHANSHAHI, A. Concentrated Forces on Unidirectionally Stretched Plates . . . . .	129
FOX, N. Thermal Stresses due to a Moving Line Source on a Plane Boundary . . . . .	25
FREEMAN, N. C. and SIMPKINS, P. G. On the Diffusion of Species in Similar Boundary Layers with Finite Recombination Rate at the Wall . . . . .	213
GREEN, A. E. and NAGHDİ, P. M. Some Remarks on the Linear Theory of Shells . . . . .	257
GRIBBEN, R. J. Magnetohydrodynamic Stagnation-Point Flow . . . . .	357
HASKAL HAIM. Propagation in a Monoclinic Periodic Medium . . . . .	209
HEWSON-BROWNE, R. C. Standing Gravity Waves of Finite Amplitude in Liquid of Infinite Depth . . . . .	347
JAHANSHAHI, A. See DUNDURS, J.	
JONES, D. S. Diffraction of Short Wavelengths by a Rigid Circular Disk . . . . .	191
JOSEPH, D. D. Note on Steady Flow Induced by Rotation of a Naturally Permeable Disk . . . . .	325
KELLY, R. E. The Flow of a Viscous Fluid past a Wall of Infinite Extent with Time-Dependent Suction . . . . .	287
LAWS, N. On the Steady State Thermoelastic Problem for a Thin Plate . . . . .	161

LINZER, F. D. See OJALVO, I. U.	
LOH, S. C. See CARTER, G. W.	
MARLIN, J. A. See STRUBLE, R. A.	
MARTIN, D. W. and VARLEY, E. The Axisymmetric Bending of Concrete Cooling Towers and other Open Shells of Revolution . . . . .	173
NAGHDİ, P. M. See GREEN, A. E.	
OJALVO, I. U. and LINZER, F. D. Improved Point-Matching Techniques . . . . .	41
PARKER, D. F. Bodies which Adjoin Regions of Simple Wave Supersonic Flow . . . . .	299
PO, C. Y. K. See CARTER, G. W.	
RAMAMOORTHY, P. Heat Transfer in Hydromagnetics . . . . .	31
RANGER, K. B. A Stokes Flow Treated by the Method of Inversion . . . . .	277
RARITY, B. S. H. The Wall Jet on a Rotating Disc . . . . .	455
SCHMIDT, L. C. A Problem of Elastic Lateral Stability . . . . .	501
SIMPKINS, P. G. See FREEMAN, N. C.	
STRUBLE, R. A. and MARLIN, J. A. Periodic Motion of a Simple Pendulum with Periodic Disturbance . . . . .	405
SWAN, G. W. Upstream Influence Effects in the Flow of a Conducting Fluid over an Insulating Wall . . . . .	243
THOMAS, D. P. Diffraction by Two Coaxial Apertures . . . . .	107
TOWNSEND, JOAN Steady Three-Dimensional Boundary-Layer Flow of a Compressible Fluid past a Flat Plate with Parabolic Leading Edge . . . . .	231
VARLEY, E. See MARTIN, D. W.	
WALDRON, R. A. The Theory of Coupled Modes . . . . .	385
WILLIAMS, W. E. Diffraction in an Anisotropic Medium . . . . .	121
WILLIS, J. R. The Elastic Interaction Energy of Dislocation Loops in Anisotropic Media . . . . .	419
WITTRICK, W. H. Axisymmetrical Bending of a Highly Stretched Annular Plate . . . . .	11
